

LEGAL TECHNOLOGY

Assetra

Legal Estate and Asset Management System

Structured, secure, and efficient estate workflow management for law firms.

Made with GAMMA

The Fragmented Estate Workflow

Why This Matters

Law firms managing estates without a unified platform face compounding inefficiencies — from missed deadlines and lost documents to compliance exposure and client dissatisfaction.

Poor tracking of assets and beneficiaries

Uncoordinated approval processes

No centralized audit trail

Who Assetra Serves

Assetra is designed around the real roles inside a law firm — from administrators to senior approvers — with each user granted precise access and responsibilities.

Firm Admin

Manages users, permissions, and system-wide settings.

Interns

Assist with data entry and document preparation under supervision.

Audit & Compliance

Monitor activity logs and ensure regulatory adherence.

Lawyers

Handle client records, asset cases, and legal documents.

Approvers

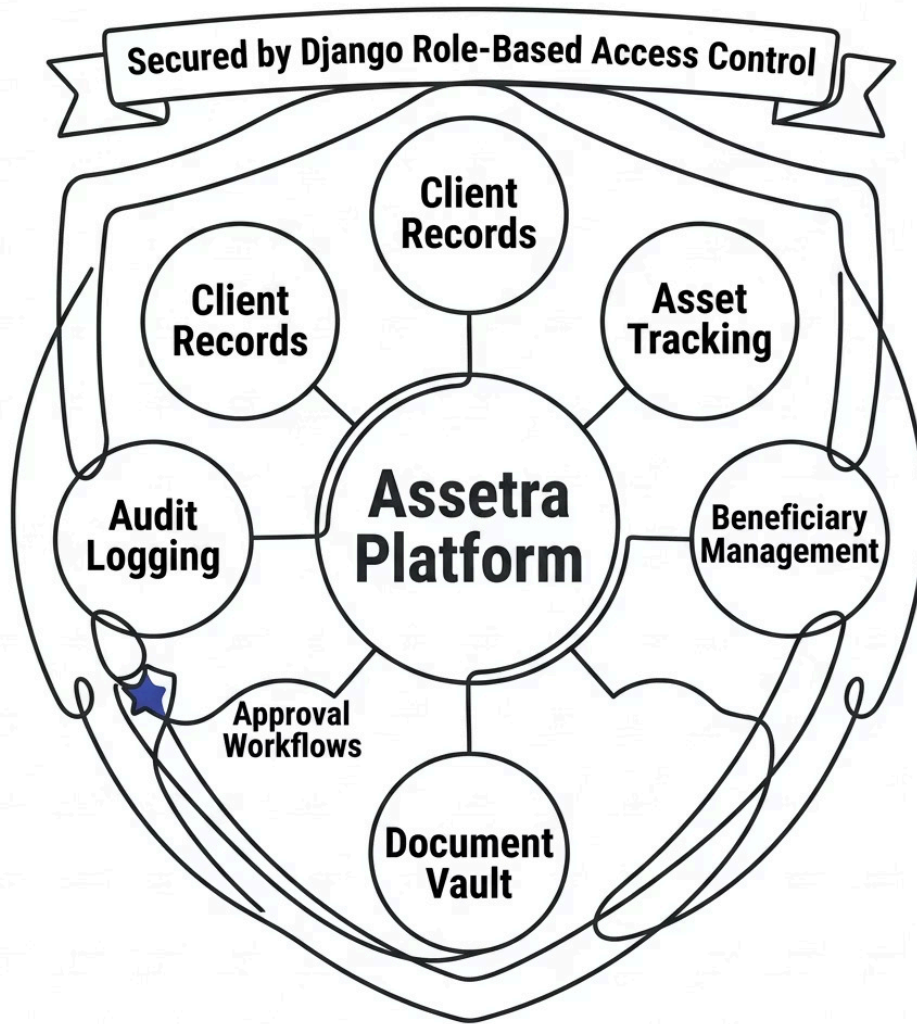

Senior staff who review and authorize distributions and filings.

Clients

Indirect beneficiaries of faster, more transparent case handling.

One Platform. Complete Estate Control.

A Unified Legal-Tech Platform

Assetra consolidates every aspect of estate management into a single, secure Django-based web application — eliminating tool fragmentation and manual overhead.

→ Centralized client, asset, and beneficiary records

→ Built-in audit logging and compliance tracking

→ Structured approval workflows with role-based access

→ Designed for clarity, efficiency, and accountability

CORE FEATURES

What Assetra Delivers

Client Management

Organized profiles with case history and contact records.

Asset Tracking

Register, categorize, and monitor estate assets in real time.

Beneficiary Management

Link beneficiaries to assets and track distribution status.

Secure Documents

Protected upload, storage, and permission-based access.

Approval Workflows

Structured sign-off flows for distributions and filings.

User & Role Management

Granular access control tailored to firm hierarchy.

Audit Log

Immutable activity tracking for compliance and accountability.

Dashboard Overview

At-a-glance monitoring of cases, tasks, and firm activity.

EXPECTED IMPACT

A Stronger Foundation for Estate Practice

Improved Organization

All records centralized — no more scattered files.

Faster Workflows

Structured approvals reduce delays and bottlenecks.

Better Document Control

Permission-based access protects sensitive estate data.

Stronger Accountability

Full audit trails ensure compliance and transparency.

 **Assetra** — Built for law firms. Designed for trust.
